

MyVilla collection Ref.127

The villa is built in a magnificent area of 6 hectares, 3 km from Sidi Abdellah Ghat at the foot of the atlas. Straight out of the most inspired architectural sketches of our time, like the famous architect Le Corbusier. Open to nature and the flourishing expanses of rose gardens, nurseries, bamboos, orchards, orange groves, and other vegetation, every moment spent in this exceptional area is an invitation to escape and well-being.

In an eco-responsible spirit, the whole area is supplied with clean energy thanks to the Off Grid system based on photovoltaic self-consumption. The villa draws its water needs in an underground river, in its kitchen garden and beehives.

RÉF	Ref: 127
LOCATION	Sidi Abdellah Ghat
BEDROOMS	19
Bathrooms	19
Land area	60000 m²
Habitable area	965 m²
Exhibitions	3
Kitchens	
Swimming pool	3
